SUMMARY

I am a pre-final year Integrated MCA student who enjoys building websites, APIs, and simple automation tools. I mostly work with PHP, JavaScript, MySQL, and WordPress. I also have experience testing APIs with Postman, using Selenium for basic automation, and deploying projects on AWS. I like solving problems, debugging issues, and improving the performance of the projects I work on. I am looking for an internship or entry-level role where I can learn more and contribute to real work.
